12/21/05. We are filing this new Annuity Data Page in order to change the Minimum Interest Rate Cap for the Life of the Policy that was originally approved in your state. Due to the continued low-interest rate environment of the last few years the Company would like to lower the Minimum Interest Rate Cap for the life of the policy. This cap reduction will help reduce the Company's exposure to the declining interest rate environment yet still provide safety for our policy holders by continuing to guarantee a minimum interest rate cap for the life of the policy. The new range for the Minimum Interest Rate Cap for the Life of the Policy will be 1% and 3%. This change will be applicable only to new issues after the date of the data page approval, and will not affect any policies that have previously been issued.

We want to certify that no other change, outside of the change explained above, is being made to the underlying contract that was approved in your state. The product will continue to include a guaranteed minimum withdrawal value equal to 90% of the single premium paid, less prior partial withdrawals, plus interest credited using an effective annual interest rate of 3.0%.
